

Detroit Free Press 6/6/09

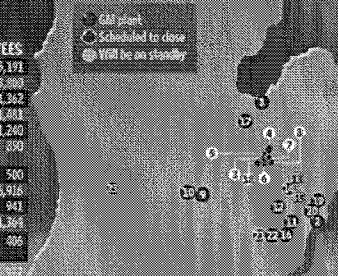

The full-size Chevy Silverado pickup has been built at Pontiac Assembly Center, which is scheduled to close.

## In Michigan

GM plans to close at least seven factories in Michigan as part of its restructuring. However, the automaker will still have a major presence in the state.

FACILITY	EMPLOYEES	FACILITY	EMPLOYEES
1. GMPT Bay City	400	12. Piquette Grounds in Detroit	5,191
2. Detroit/Hamtramck Assembly	1,402	13. Orion Assembly	2,809

11. GMPT Livonia Engine	110	22. GMPT Tuckerton Transmission Operations	496
		23. GMPT Flint	

The Chevy Volt, an extended-range electric car, is to be built in Hamtramck.

The Pontiac G6 has been built in Orion Township. The plant will be on standby.

The Buick Enclave luxury crossover has been built in GM's Lansing Delta Township plant.

# The world according to GM

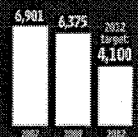

A look at the Detroit automaker's deep reach in Michigan, the United States and around the globe

## In the U.S.

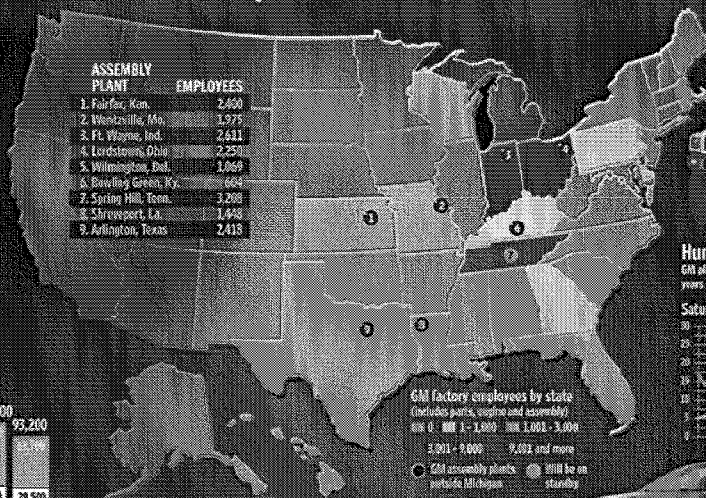

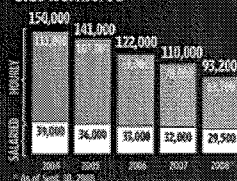

GM has been rapidly cutting its workforce and dealerships to bring costs in line with plummeting demand for its cars and trucks.

### GM's target for cutting dealers

(Beginning of the year figures)

### GM's declining U.S. workforce

GM's Hummer brand has been known for huge, rugged vehicles with poor fuel economy.

### Hummer and Saturn sales slump

GM plans to end or sell its Saturn and Hummer brands following years of performance problems.

Saturn and Hummer sales (in thousands)

The Saturn Aura was named North American Car of the Year in 2007.

GM's Vauxhall Sunshine has been a top seller in China.

## Around the world

While GM's operations around the world are performing fairly well, the company's critical North American operations remain deeply troubled.
